Quite a large number of young warriors have been away from the band, which was leaving the Bad Lands: also quite a number of Two Strike's band, going toward Forsythe. The troops are in close proximity. (Signed) MILES.

Killed—Capt. Wallace, K troop; private Cook, B troop.

Wounded—Father Crafts, Catholic missionary, probably fatally; Privates Stone, Sullivan, Smith, Davis, Hazelwood, Toohey, Atams, B troop; Lieut. Garlington, Lieut. Kinzie, Interpreter Wells, Sergt. Liyd, Sergt. Camell, Sergt. Dyer, Corp. Newell and Trumpeter Choedenson.

Several of these wounded will die. This by no meads completes the list of wounded. It was no accurately given made.

Another spress of from the scene of the battle asserts that five troopers were killed outright and at least a dezen mortally wounded. The correspondent expresses the belief that not one of Big Foot's band will be left

alive tonight. Lincoln (Neb.,) Dec. 29.—The State Journal has from its special correspondent the following story of the fight between the troops and Big Foot's Indians at the camp at Wounded Knee:

dians at the camp at Wounded Knee:
At 8 o'clock this morning the troops were massed about the Indian village, the Hotchkiss guns overlooking the camp, not fifty yards away. Col. Forsythe ordered all the Indians to come forward, away from the tents. They came and sat in a haif-ciric until counted. The dismounted troops were then thrown around them. Company K. Capt. Waliace, and Company B. Capt. Varuum.

The order was then given to twenty of the Indians to go and get their guns. They returned with only two guns. A detachment of troops at once began to search the villages, finding thirty-sight guns. As this task was about completed, the Indians, surrounded by Companies K and B, began to

villages, finding thirty-eight zuns. As this task was about completed, the Indians, surrounded by Companies K and B, began to move. All of a sudden they threw their blankets to the ground, whipped up the rifles and began firing rapidly at the troops, not twenty feet away. The troops were at great disadvantage, fearing to shoot their own comrades. The Indian men, women and children then ran to the south, the battery firing rapidly as they ran. Soon the mounted troops were after them, shooting them down on every hand. The engagement lasted fully an hour and a halt. To the south many took retures in a ravine, from which it was difficult to dislodge them. I should estimate the killed and wounded, from which it was difficult to dislodge them. I should estimate the killed and wounded, from what I saw on the field and vicinity, at fifty. Just now it is impossible to state the exact number. The soldiers are shooting them down wherever found.

The field was one of great confusion, horses running in every direction and the men, for a few moments, frantic owing to the unfortunate way they were placed. Capt. Wallace was the only officer killed. In the first mad rush of the Indians, those of them who had not guns attacked the troopers with knives, clubs and tomahawks and poor Capt, Wallace was struck down with a blow from a hatchet on the head. Father Craft, a Catholic missionary, received a builet wound which will probably result fatally. Lieut, Garlington of Arctic exploration fame, received a serious wound in the arm. A number of noncommissioned officers and privates were wounded, probably twenty-five or thirty in all. Several of these are likely to die. I cannot at this time give the names of all the wounded. As the dispatch is being written the troops are still pursuing the Indians in every direction.

The correspondent says that the Indians must have been mad to have attacked the number of soldiers who

The correspondent says that the Indians must have been mad to have attacked the number of soldiers who were gathered about them, there being only 120 bucks. The treacherous deed coming at the time it did was a surprise, and the correspondent doubts if any of the indians will be left alive to tell the tale when the soldiers get through their day's work. The members of the Seventh Cavalry have once more shown themselves heroes in deeds of daring. Single conflicts of great bravery were seen all over the field.

THE NEWS AT WASHINGTON.

Dispatches from Gen. Miles About the Porcupine-Breels Fight. WASHINGTON, Dec. 29.—[By the As-sociated Press.] Official dispatches from Gen. Miles, dated Rapid City, S.

from Gen. Miles, dated Rapid City, S. D., were received tonight by Gen. Schofield, telling of the fight in the Bad Lands today. The first was:

Whiteside has four troops of cavalry and held the Indians till Foreythe reached him with four more troops last night. At 8:30 this morning, while disarming the Indians, a high commenced. I think that very few Indians have escaped. I think that we will have this matter in hand as soon as all are in position. There was no precaution omitted. The fight occurred near the head of of Wounded Knee Creek. I have just seen

many of the Indians who went out toward Forsythe this morning come back.

The next dispatch says:

Gen. Brooke telegraphs that Forsythe reports that while disarming Big Foot's band this morning a fight occurred. Capt. Wallace and his five soldiers were killed. Lieut. Garlington and fifteen men were wounded. The Indians are being hunted up in all directions. None are known to have gotten to their ponies. Gen. Brooke also reports that many of the young warriors that were going from the camp in Bad Lauds to the agency have gone toward Forsythe. All of the troops have been notified.

The Indians Pursued and but Few Will Be Left Alive This Morning—Fighting at Pine Ridge.

By Telegraph to The Times.

OMAHA (Neb.,) Dec. 29.—[By the Associated Fress.] A Bee special from Pine Ridge says that a battle was fought last night between the hostiles and troops on Porcupine Creek. A number were killed on both sides. Capt. Wallace and other officers of lower rank of the Seventh Cavalry, are among the killed.

CHICAGO, Dec. 29.—The rumor received in this disy this afternoon that a serious fight bad occurred when the troops tried to disarm Big Foot's band, is confirmed by the receipt of the following telegram by Col. Corbin from Gen. Miles at a late hour tonight:

was eight miles northwest of Maj. Whiteside's camp on Wounded Knee. When this was reported to Maj. Whiteside he ordered four troops of the Seventh Cavalry into the saddle and marched to the point indicated by the scout. As the military approached the hostiles formed in a long line of battle. Maj. Whiteside brought the men up into line, and when they came within rifle shot, Big Foot came forward on foot unarmed and signaled that he wanted to speak with the major. Dismounting, the latter walked out and met the chief. As they came forward Big Foot extended his hand in token of peace: "I am sick. My people here want peace," he said, but Maj. Whiteside cut him short with, "I won't listen, nor will I have any parleying at all. It is either unconditional surrender or fight. What is your answ." Whiteside he ordered four

Ridge Agency arrived at 3 o'clock this Ridge Agency arrived at 3 o'clock this morning and says that fighting is now going on between the Indian police and some of the Indiana recently returned from the Bad Lands. It is impossible to learn how serious it is. There is much anxiety at the agency, where there is only a few companies of infantry.

A special from the Pine Ridge

A special from the Pine Ridge Agency early in the evening says: This afternoon a troop of cavalry was fired on by Indians from the Ro camp, near Pine Ridge. A skirmish followed in which two soldiers were wounded. The casualties among the Indians are unknown. There is much excitement among the other Indians at the agency, and it is feared that a lot of young bucks will slip away tonight. Owing to the absence of all the cavairy they could not be pursued with any degree of success.

Building "Whaleback" Ships.
MINNEAPOLIS, Dec. 29.—A special from Duluth, Minn., to the Tribune says it was definitely settled today that Capt. McDougall, manager of the steel barge company, will start for the Pacific coast in ten days to estab-lish a ship yard on Puget Sound for building steel "whaleback" vessels for the Pacific coast trade. The company has submitted the plans of its peculiar style of vessel to the United States navy, and if the Government lets any contracts to the company a ship yard will be established on the Atlantic coast. Destitution in Oklahoma.

Chicago, Dec. 29.—Gov. Steele of Oklahoma, who is now in the city, says that there is great destitution among many people in Oklahoma, and relief is necessary. The trouble dates back to the boomer days, when people dissipated their means trying to get into the Committee on the Elections Bill, and Mr. Gorman withdrew his motion. Senator Hoar Enters a Strong Plea for the Elections Bill-Lehlbach and the Immigration

By Telegraph to The Times. WASHINGTON, Dec. 29 .- [By the Associated Press.] Senate.—The Senate met at noon and the Vice-President laid before the Senate a communica-

his prima facia case. Mr. Vance remarked that it was stated in the newspapers that three senators were elected in Idaho, and that the legislature had gone to the extent of assigning to each of them the team for which he should serve. That was contrary, he said, to the rule of the Senate and to the constitutional provision. He thought it proper, therefore, that the question be determined by the proper Committee of the Senate.

Mr. Mitchell said that he had reliable information that it was a false report. So far as the election of three senators was concerned, he held it regular and in order.

Mr. Hoar argued that the question was a very simple one. It was clear and unquestionable that one of the two senators whose credentials had just been presented would go out on March 4, 1891, and the Legislature (being in session) had elected a Senator for the term which would then begue. Be

which would then begin be measured to the continuous would all a signal his warriors raised the white fag. In less time than it takes to write it the military had their prisoners surrounded and a courier was hastening to Pine Ridge for the other four troops of the Seventh Cavalry and Lieut. Taylor's scouts to help guard and disarm the party. There are 150 warriors, all perfectly armed, and 250 squaws, together with many children.

They seem to be all well fixed for war except that some of them are without ponies. Maj. Whiteside has 2500 soldiers. The general opinion is that the surrender of Big Foot is not in good faith. The Indians still retain their arms. The party, however, is being watched, and the first false move will precipitate a fight.

Mr. Reagan—Yes.

Mr. Spooner—The Legislature of Idaho adopted a resolution to proceed to the election to fill the two existing vacancies, and it elected Messrs. How does that fact affect the question as to the Legislature having elected a third man, whose term of office is to commence in the future?

After further discussion between Messrs. Carlisle, Reagan, Spoener and others, the credentials of Messrs. Shoup and McConnell were referred to the Committee on Privileges and Elections.

met at noon and the Vice-President laid before the Senate a communication from the Governor of Idaho transmitting the credentials of the senators ele. t from that State, George L. Shoup and William J. McConnell. The credentials having been read, Mr. Hoar asked that as Mr. Shoup was present the oath of office be administered to him.

Mr. Vance remarked that the new State of Idaho appeared to have elected more than its share of senators and he thought that the credentials should be referred to the Committee on Privileges and Elections.

Mr. Hoar's motion having been agreed to, that Senator escorted Mr. Shoup to the Clerk's desk, where he took the oath of office. Mr. Harris subsequently 1 quired what had become of Mr. Vance's motion, and said that Mr. Shoup was simply sworn on his prima facia case. Mr. Vance remarked that it was stated in the newspapers that three senators were elected in Idaho, and that the Legislature had gone to the extent of assigning to each of them the testin for which to each of the testin for the testin for which to each of the S sembly.

Mr. Lehlbach is Opposed to the Restriction of immigration.
Washington, Dec. 29.—[By the Associated Press.] Two weeks ago Chairman Owen of the House Committee on Immigration was authorized by the majority of the members of his committee to report a comprehensive bill to the House. amendatory of the present clabor and immigration laws. It was thought to be

Senate a bill authorizing the construc-tion of a railroad in Alaska. The bill grants to the Alaska Coal Mining and Development Company the right to construct a railroad and telegraph line on the most eligible route from Portage Bay to Henderson Bay in the Bering Sea.

Bay to Henderson Bay in the Bering Sea.

The Senate Committee on Public Lands reported adversely to the Senate today the House bill to relinquish the interests of the United States in certain lands of the city and county of San Francisco. The Senate bill in relation to the surveying of public lands in Washington and Arizona was reported favorably from the same committee. The committee reported favorably the bill to provide for the disposal of the abandoned Fort Maginnis Military Reservation in Montana for educational and other purposes. The bill is amended to provide that the sections granted the State of Montana shall revert to the United States whenever their use for educational purposes shall cease. The Senate bill creating two additional land districts in the State of Montana was reported favorably without amendments.

THE GRAND JURY.

Its Final Report Presented to we a Judge Cheney.

COMPREHENSIVE REVIEW

Buildings-Various Re-

At 20'clock the county Grand Jury made their final report to Superior Judge Cheney, in Department Oos. The jury was then finally discharged. The report is as fol-lows:

The PLANTING COUPLE OF THE PLANTING COUPLE OF

ing is very greatly to be regretted, and this jury most emphatically calls for the application or some remedy, if it can be found. It is now apparent that the penalty of \$20 per day as a forfeiture for failure to complete the building by September, 1890, is entirely inadequate as a compensation to the country apparally so, from the feet. entirely inadequate as a compensation to the county, especially so from the fact that the architect is receiving just that sum as a per diem compensation, and as he is interested in that amount in delays, the county is no gainer; and in the meantime it is a heavy loser by reason of being obliged to rent courtrooms and offices at a heavy cost—erstwhile the contractor is employing but few men and the work goes very slowly forward to completion. It is now very apparent that a penalty of \$100 a day would scarcely have been adequate.

The amount paid to the contractor is \$407,209.68, leaving but the sum of about \$125,000 yet to be paid in full payment on his contracts; there is yet to be supplied for completion the wood finish (white cedar,) floors, doors and sash, plastering, plumbing, hardware, elevator, heating apparatus, glass, clock, etc. Before any further sum is paid we deem the security of the county imperatively demands that a complete examination be made as to the sufficiency of the remaining sum in the hands of the county, to meet the subsequent cost, and also a complete revision of the architect's certificates on which allowances have been based up to this date. ased up to this date.

COUNTY FARM.
The committee, after a thorough inspec

The committee, after a thorough inspecion of buildings and farm in September, presented a very complete report, enabling us intelligently to speak on this subject (the more so from the additional fact that ta number of our members are practical horiteuiturists and ranchmen, from different parts of the county.)

The buildings are new and adequate, except that the closets should be connected with the sewer for carrying off the waste water, otherwise any inattention to frequently cleansing the vaults will become a source of disease, and the present sewer should be continued from its now termination to the sandy wash land.

The expenses for salaries being moderate and reasonable the current expenses are not large. The superintendent being a physician, a saving is thereby made.

The acreage of the farm (112 acres) we think entirely sufficient, as all of it except the campus grounds and about five acres of wash is susceptible of cuitivation. The sandy wash, we think, should be planted to encalyptus to supply an abundance of firewood in a few years for fuel. Especial care should be taken that, during the wet season and when the fogs prevait, the occupants (being mostly persons of infirm physique) requires much artificial warmth. The land supplies twelve acres for alfalfa, sixteen acres for hay, eight acres for deciduous fruit, eight acres for gardening, twenty acres for pastur ge; besides, there are twelve acres in orange trees thit are in fair condition. The Grand Jury most distinctly condemns an effort which has been made to plant an additional orange orchard of twenty-eight acres. Very nearly all of these trees failed to live when planted. These reces being guaranteed by the nurseryman, we recommend that the contract MONEY LOANED BY T. C. NARA-and 8 per cent. in city

managed."

But this Grand Jury, in giving their consideration to the figures of this report, have been strongly impressed with the fact that, while in this age of reading and literary cuture, it is highly proper that a public library should exist and be well maintained, that this has become a very expensive luxury, and it is a question to our minds whether some curb should not be applied to its apparently excessive cost.

There has been expended in eighteen months, between April 1, 1899, and October 1, 1890, the sum of \$24,896.28, about \$2.50 to every family in the city, One-half of the gross sum of \$25,000 was expended for books, etc., that is, the sum of \$12,714.27. The eslaries paid were \$7,632.41, an average per month of \$423.52. This, as against the sum of \$185 per month in 1898, as increase of 250 per cent, over boom times. In the matter of current expenses the monthy cost for the last eighteen months was \$214. It is a gainst in 1837 a monthy cost of \$97. Itemembering that in 1857 rent was paid, while apartments have been provided for use in the new City Hall for the past year, BUARD OF EDUCATION.

This important department of the city

This important department of the city government, to which there has been much public interest called by the press, and in discussion among the people, has naturally drawn to it much criticism, from the fact that they have purchased a large number of pieces of property and erected many new school buildings, and necessarily disbursed large sums of money. We have had their minutes, contracts and important papers examined and find the minutes correct, except some minor errors which were corrected. Agreements compiled with as far as completed, ascording to contract. Our expert suggests that the board should keep ledger Ecounts, for the purpose of simplifying the business of the board, and making much easier the work of the annual examination. He also suggests that an error in their accounts of \$77.67, reported as existing at the time of the last investigation, shall, by competent authority be cancelled, that their books may thus be made to arree with the books of the Anditor and Treasurer.

In the matter of insurance of the buildings, while the city should properly be insured in its property. Yet in the case of detached school buildings only reasonable sums should be taken, and the city bear a share of the risks.

Before leaving this important subject this Grand Jury desires to say that this board, consisting of a number of the most reputable citizens of the city, from the fact that they are called to perform much public service without remuneration, at their own expense, naturally attach to themselves suspicion—so much so that gentlemen feel reluctant to have the most reputation.

be cancelled and the matter be adjusted on the best possible terms, and thar the few living trees be concentrated and the land be used for other purposes. As a Grand Jury we most positively protest against the county becoming a competitor in the business of raising oranges or any other product for sale, as a business. Especially that it should not expend a good many thousand dollars of the taxpayers' money in experimenting in a line of business such as orange-producing, which, it is known, requires the utmost care and vigilance of a practical horticulturist in all its detail, to make it a success.

ty Cierk.—In the examination of the former examination of the former examination of the former examination, and the corrections. For remarks on this office, see furnition below.

The superintendent of Schools.—A representation to work was done by the on the books and papers of this Much of this would have been usary, or at least more easy of accoment if the accounts in this office and analysis office were uniform; that is, lifferent school-district accounts were ted by the Treasurer, and he kept for building fund-account, and an intersinking fund-account, and an intersinking fund-account, and an intersinking fund-account was closed by the of buildings and exhaustion of the that distinct accounts would be closed an unparent accounts would be closed an unparent accounts would be closed an unparent accounts would be closed.

More that the superintendent should keep a pournal from which his ledger postings be laken. This would not greatly increase his labor, and as the new law increases his slary by \$1000 giving him \$300 instead of \$2000, as heretofore, he could so de without saking for an increased expenditure for help. A good result, however, has been accomplished by the extra labor put upon the examination of this office, by this thorough examination in showing that now, on August \$1,1890, there is a real correctness in the financial condition of the school funds; the former discrepancies and errors being adjusted, and the one loss of \$38.40 located, the recovery of which remains in doubt. The future correctness ought to be so assured that the public need not be further agitated over the subject. The administration of this office is a difficult one, and requires patience and firmness, as well as ability, in the incumbent.

County Auditor.—The examination of the office of Auditor by George Monroe, expert, made for eighteen mouths ending November 1, 1800, has been minute and painstailing. The allowances made by the Board of Supervisors, School Superintendent and Superior Courts are all covered by the warrants suited by the Treasurer, being Nos. 3202, 323, 220, 988 and \$415. They have been destipyed, surreptitiously abstracted or fraudurantly issued. We have only been able to twoe one of them. It is not probable that the Treasurer, by instending with the minutal and superior county in the minutal and checked, and finds the different funds to be correct and balanced with the Treasurer's report of November 1, 1890.

The bond books he only examined so far as the checking of the fund books made it necessary. We do not deem it essential to have gone further. What we regard as of the most importance, now that this office has been brought into its present excellent condition, its that there should now be opened a general ledger with the accompanying journal, embracing every account necessary. We do not deem it essential to have gone furthe

The Treasurer and Auditor have some ground for complaint that in some cases the silowance sheet prepared by the cierk of the board has not been sufficiently explicit in stating the basis of claims for which allowances are made.

The immense volume of business passing through the hands of the board requiring their scrutiny cannot have the close personal attention the county's interests demand. Their labors, therefore, are liable to meet with adverse criticism, and this fact explains, to some extent, the very current opinion that, in many cases, excessive xe-

CHADWICK-DAMRON.

Sensational Disclosures in Justice Austin's Court.

PECULIAR STATE OF AFFAIRS

Developed Through a Civil Suit-Chadwick Said to Be in Hiding in the City-Two Affidavits

Two affidavits were filed in Justice Austin's court yesterday morning which dis close both a peculiar and remarkable con dition of affairs and which reflect no credit

upon any of the parties involved.

November 25 last, W. H. Holmes com menced suit against A. J. Vinton for \$300 on a claim against Vinton which Chadwick alleged was due him and assigned to Holmes by "J. S. Chadwick per J. M. Damron, his attorney in fact."

Holmes by "J. S. Chadwick per J. M. Damrou, his attorney in fact."

It seems that some time before the Damron-Lockwood-Chadwick bubble was exploded last eummer E. A. Gibbs desired to borrow some money en real estate security. J. S. Chadwick endeavored to secure it for him from the State Loan and Trust Company. Before he had proceeded very far in the matter, however, Mr. Chadwick was forced into retirement, owing to his disgraceful connection with the shady transaction.

Then A. J. Vinton took hold of the matter and secured the loan, paying all of the necessary expenses. After the loan had been secured D mron went to Gibbs and been secured D mron went to Gibbs and hendeavored to collect the \$300 commission for Chadwick. Gibbs declined to pay him anything, claiming that he had paid the commission to Vinton, who was the party who had secured the loan for him.

Then later on, and after Chadwick had mysteriously disappeared just the day before he was wanted in court to testify against James M. Damron on a charge of forgery, he being an all-essentia witness for the people, W. H. Holmes commenced this suit gainst Vinton. The ground was that the plaintiff held a claim of Chadwick's assigned to him by "J. M. Damron, sa attorney in fact," and \$300 that was to Vinton's credit in the First National Bank was garnisheed.

Yesterday was the day set for the trial of the case before Justice Austin. But the plaintiff's attorney, E. K. Powers, who is a

iffidavits prepared, and as the defendant objected he was given one hour to prepare them.

As il o'clock Mr. Powers turned over to the court the affidavit of the plaintiff W. H. Holmes. In it Mr. Holmes asserted that he could not safely proceed to trial on account of the absence of J. S. Chadwick, a material witness, who, he was informed, was in Mexico, but would return within ten days. The plaintiff swore that he had issued no sub, cona for Chadwick because of the fact that a bench warrant was out for his arrest, and the sheriff was unable to find him.

A. J. Vinton, the defendant, filed a counter affidavit, in which he swore that J. M. Dauron had himself sworn in open court that he was interested in the case; that the said Dauron had taken the affiliant Vinton to see Chadwick at a place where "the said Chadwick had gone into temporary retirement" in the neighborhood of Hill street, near Temple, on two occasions, after bench-warrants had been issued for Chadwick, owing to his failure to respond to a subpona in the case of the People vs. Dauron.

The affiant also alleged that Dauron took Chadwick, in a closed carriage, from his place of retirement to see E. A. Gibbs; that the Directory did not disclose the existence of such a party as Dr. La Moyne, and affiant did not believe that such a party existed.

This fidavit and its sensational charges brought Mr. Powers to his feet. He said that if Chadwick wis in the city he did not know it; that his claim against Vinton had been signed over to Holmes by J. M. Dameron, altorocy in fact. and the As the noon hour had arrived Justing Austin adjourned the against had a prived Justin and of the analysis with Chadwick.

wick.

As the noon hour had arrived Justice Austin adjourned the case until 2:30 p. m. At the hour named the trial of the case was commenced and continued until the hour of adjournment of the court. It will be continued this morning at 9:30 o'clock.

THE PLOT THICKENS.

If "Mr. Chadwick by his attorney in fact, J. M. Damron," assigned to W. H. Holmes a claim for \$300 after October 25 he is a claim for \$300 after October 25 he is guilty of perjury. For on that day he tiled a petition in insolvency with the County Clerk, and the inventory of his assets failed to disclose any ciaim against A. J. Vinton. Then again the record of physicians kept by the County Clerk failed to disclose any such person practicing medicine in the county as Dr. La Moyne, from whom Holmes in his affidavit states he received his information that Chadwick was in Mexico.

"The facts of the case are," said a well

pearance just before he was wanted to testify in the Damron trial. Damron has known where he was all of the time, for he has taken parties there to see him.

"But yesterday, after this siddavit was made, Chadwick was moved at once to a more secure, as well as obscure, hiding place.

"Journell of them are booked for Southern California also, and many are coming to make the house arrested on the bench warrant too, it is all essential to J. M. Damron that he should not be turned up until fafter the other cases against him for forgery are disposed of, and they come up January 8.

"After Judge Cheney goes out, as he will on Monday next, the chances are that his successor will not punish any one sullity of contempt of court prior to his going on the bench."

There is food for thought in the declaration of men of science that as a union of States we have reached— or nearly reached—the beginning of the end.

The eleventh census, taken in the

onth of June, shows that Nevada has a population of but 45,000 people all told, and that this number is rapidly growing less. Ere many more years have slipped by, if the present ratio of decrease continues, that State will be so small in point of popula tion as to lose its right to representation in Congress, and when that hour arrives it must once more become a territory and one can forsee the time, Nevada being almost purely a mining State, when, its ore deposits becoming ex-hausted, it will not have sufficient population to deserve even the dis tinction of being a territory, and

hence will be merely a spot of dead and deserted land, as bleak and drear as are the mountains of the moon. Were Nevada the only star we were in danger of losing from the flag the prospect would not be as ap palling as it is; but we wel know how each year finds certain States of the Union, notably in New England, decreasing in population; the lands growing unfruitful, only being able to grow any crop whatever a great cost for guano and other fertilizers, while the people who remain upon the acres which have for two hundred years been tilled until tired nature, utterly exhausted, refuses to sprout the seed sown upon the barren soil, find life so hard that they are forced away to find lands vet new and tillable.

Therefore, we may say say that it i only a question of time until State after State will so diminish in population, because of exhaustion of its resourceseither of soil or mines-that it must necessarily be dropped from the roster of States, for we have been living at a railroad rate; we have ravished the

orchards, no grain-fields billowing with waves of gold, no cities buzzing with life, and no more upon this soil a peo-ple, proud, rich and great—the very

masters of the earth.

The soil will have lost its power to yield, and the men upon it will be only the ones lying asless forever in the churchyards, their mourners the bats and the owls that flit above them, and that will be the end of the American

FORGING THE CHAINS.

The great American people are a patient lot. They have shown it on many occasions, but no more striking intance has been known than we see a this time, when the boss bandit, Jay Gould, and his precious pals, having 'swiped the swag," are advertising through the Associated Press that they will meet on January 5 and proceed to divide.

Slowly but surely they are forging the chains of slavery around American people, for any man with \$200,000,000 and the heart of a Gould can so effectually enthrall a people that they may not even hope to struggle

And yet they might, too, perhaps, if they could be awakened to the danger that confronts them. The people are vet mightier than the millionaires. but how long before the Samsons may be shorn, remains to be seen. The power of preservation is still inherent in the masses, but the man with the manacles is at the door.

We are up to this hour a free people -perhaps-but Gould, the heartless tyrant, with his links of gold, is rap idly chaining us to his "special car," and may any day succeed in dragging us into that slavery of poverty which looms up in the distance, gloomy and awful.

Perhaps there may be an awakening

> THE NICARAGUA CANAL. Warner Miller of New York, presi ent of the Nicaragua Canal Company, presented to the stockholders, unde date of the 17th inst., the report of the

company's division engineer, covering the work performed prior to October 8 last, also the report of the chief surgeon upon the hospital service and the general health of the employes of the company in Nicaragua.

The report of the division engineer is

very complete statement of the work done by the company, and shows that the work during the past year must have been pushed with vigor and success. The health of the force during the time covered by the report has een remarkably good, and there is no onger any fear that the work cannot be successfully prosecuted because of

climatic causes.

President Miller also reports that the ompany's concession from Nicaragua was confirmed by the Nicaraguan government early in November; a commission appointed by the President of Nicaragua having made a thorough examination of the work, reported to the government that the company had complied with all the provisions of the ncession, and had expended much more than the \$2,000,000 required to be expended during the first year. By the confirmation of the concession the rights of the canal company have been endered permanent.

The president also reports that the depth of water on the bar at Greytown now twelve feet; he having received a cable from Chief Engineer Menocal to that effect. It is expected that the water on the bar will be deepened to twenty feet by the middle of January, which will give a sufficient depth of water for all vessels to enter the harbor and unload at the company's wharves. "I therefore feel justified in congratulating the stocknolders of the Nicaragua Canal Construction Company on the present favorable condition of the work," says President Miller in closing. The report of the division engineer contains great number of interesting details, ome of which THE TIMES will repro duce at a future time. This great enerprise is of supreme interest to Cali-

letin says:

According to more detailed but still meager advices regarding the new concession by the Colombian government to the Panama Canal Company, the terms are not especially Tharai. The company having bayfelted its lands, which were granted free by the original concession, must now purchase them. It must also pay for military and police protection, give the government a bonus of 10,000,000 francs and first preferred stock to the amount of 5,000,000 francs. Presumably the 5 per cent. of the income of the canal when in operation, which was secured by the government by the original bargain, must also be paid under the new concesion. In return for all this the Government allows the company two years from

GRAND OPERAHOUSE.—After the triumphant performance of Lohengrin on Saturday night, it was but natural that a second Wagnerian opera, less known and perhaps less worthy, should suffer by comparison. The Flying Dutchman possesses in abundance both the merits and demerits of its composer. It has magnificent orchestration, fine and serious recitative, gliding here and there into metody, but it lacks action and story, and the preparatory phrases are out of all proportion to the following motif. Were this monotony not interrupted by fine choral numbers the effect would undoubtedly be tealous. The opera is a very trying one to the singers throughout, necessitating immense sustaining power, strong vocalization and variety in action to carry along without flaggling the gloomy and singrish motion of the story. The opera offers enormous temptation to over-orchestration, a temptation so far yielded to that, during the entire first act, the singers were practically overwhelmed, especially "The Dutchman," whose voice is as sweet, but less robust than that of Vetta. At the close of this act it was announced that Mr. Ratofiens had been attacked with a severe hoarseness, but would sing his part under the indulgence of the audience. This threw the burden of the work upon Miss Juch, who, as might be expected, bore it with ease and grace. Her conception, both musically and dramatically, of the tranced girl was perfect. The entire second act was carried through to its beautiful ending with woulderful power, vigor and sweetness. Seldom has a more striking effect been produced than that of the abupt entrance of the "Flying Dutchman" in the middle of "Senta" sony. The spell-bound attitudes of the pair made a strong dramatic situation, and even the interruption caused by the entrance of the father was not sufficient to dissolve the enchantment that seemed to bind the fated couple. Franz Vetta here made a finely-artistic portraiture of the old mariner, and managed in a humorous way, but with due subjection to the main theme, to bring th

SCULLY WRITES A LETTER.

He Says That Parnell's Crime is a Moral, Not a Political, One. Dublin, Dec. 29.—[By the Asso-ciated Press.] Vincent Scully, recently defeated by Sir John Pope Hen nessey in the contest for North Kil kenney's seat in Parliament, has writ ten a letter to the Freeman's Journal.in which he says that the attitude of the Irish bishops before and during the election referred to only shows that Parnell committed private vice and allowed judgment by default to be delivered against him, and therefore he has been pronounced no longer eli-gible to a position of public trust. Continuing, Scully says: "The Irish

he has been pronounced no longer eligible to a position of public trust. Continuing, Scully says: "The Irish struggle is essentially a political and not a moral one—a struggle for leave for Irishmen to manage Irish affairs after their own fashion. The struggle is one of pounds, shillings and pence and not of sacraments."

Athione, Roscommon and West-Bath are reserved by a proclamation placed in all prominent places. It states that true Irishmen have resolved to support their independence and that the Kilkenny reverse is a "trumpet call for you to close your ranks, the last supreme fight for the cause."

It adds that the "fatheriand is threatened by a calamity surpassing a thousand coercion acts, the lowering of the flag of independence on the yague promises of a British statesman. Irish history teems with disasters resulting from reliance placed upon English promises."

The proclamation, continuing, asks the people to sustain the tried policy of the Independent party in Parliament, adding that, with the people of Ireland and America united behind it, it should "sustain the leader who made that policy and led you to victory until now. Money Recovered.

By Telegraph to The Times.
CHICAGO, Dec. 29.—[By the Associated Press.] One of the most daring robberies known in Chicago was perpetrated today by three stock yards toughs, undoubtedly the same who recently robbed the cashier of Allerton's packing-house. A few minutes past noon three men entered the Merpast no chants' Exchange Bank, on Commercial avenue, South Chicago. Cashier Wilder and Bookkeeper Willia had gone to lunch, and the only person left in the bank was Frank Lynn, assistant

Two of the men went to windows in Two of the men went to windows in the bank railing, pointed revolvers at Lynn and ordered him to open the door at the rear end and let the third man in. Lynn did this, when the rebber knocked him down and kicked him in the stomach until the young man was completely helpless, then he opened the vault and took from the safe three \$500 packages of bills, some change and a box containing deeds and metagages. Then he picked up Lynn, threw him into the vault and locked the door on him.

At the corner of South Chicage and Cottage Grove avenues the the robbers deserted their buggy, getting into the covered meat wagon of Charles Mullin, evidently with the idea that they would thus elude the vigilance of the police, but their pursuers were too close and a volley from the shotgun soon caused them to desert the wagon. When it was caught up with Mellin was placed under arrest, although protesting that he knew nothing about the matter, while the officers continued the chase of the others.

One of them, John Corkert, soon surrendered, and after a long hunt the others were found in a barn. They opened fire on being discovered and P trick O'Brien, a watchman with the police, was shot in the tings.

ABOUT A BRIDGE.

A Serious Quarrel Between Western Railroads.

The Union Pacific Goes Back on Traffic Agreement,

The St. Paul and Rock Island Road Refused Admission to Omaha Over the Union Pacific Tracks.

By Telegraph to The Times.
OMAHA (Neb.,) Dec. 29.—[By the Associated Press.] Attempts were made this morning by Milwaukee and Rock Island trains to cross the Union Pa-cific bridge, but the switches were fixed so that they could not, and the trains were obliged to return to Council Bluffs and transfer. S. H. H. Clark, general manager of the Union Pacific, said that the line proposed to do its own business. It did not intend to give it up to another road and allow it to use its track as it pleased. It had offered to pull Rock Island and Milwaukee trains, but would not allow the engines of those roads to do the pulling. The agreement would not be compiled with and the subject was now being discussed in New York. A decision would not be reached before the sixth provime.

CHICAGO, Dec. 29.—The action of the Union Pacific in debarring the Chicago, Milwaukee and St. Paul from entrance into Omaha over the Union Pacific bridge, was a surprise to the St. Paul officials. For some time they have been advertising that, beginning yesterday, they would run passenger trains through to Omaha, but the first one under the new schedule was stopped by the Union Pacific people at the bridge. In an interview this evening President Miller of the St. Paul road said:

Last May our company entered into an urrangement with the Rock Island road by which we were to build a bridge across the Missouri River at Omaha for our joint use. as soon as the Union Pacific people heard of this, and I refer particularly to Sidney Dillon, who is now president, and Gen. Dodge, who is a director, they sought a concrence with us and told us that there would be no need of our building a bridge, is they would be glad to let us use their pridge for a consideration.

ference with us and told us that there would be no need of our building a bridge, as they would be glad to let us use their bridge for a consideration.

Subsequently a contract was drawn up by which our road and the Rock Island ware to run trains into the Union Depot at Omahs over the bridge. This company was to pay \$50,000 a year and its proportion of other joint expenses. The contract was approved by President Adams and the board of directors of the Union Pacific, and there can be no question as to its validity. So far as our freight business is concerned we have been operating under the contract since July, but as soon as we gave notice that we would begin to run passenger trains we were shut out without an explanation. The contract is legally binding, and I don't see how the Union Pacific can set it aside.

The Rock Island contract was similar to that of the St. Paul, except that it embraced the joint use of the tracks from Omaha to Lincoln. On the strength of it the Rock island has built fifty-two miles of road between Lincoln and Beatrice, connecting with its mialn line. The Union Pacific was thus to obtain a southern outlet through the Indian Territory and beneated the pharmace of action. They were firmly of the opinion that they could not be deprived of the rights accorded them by their contract, even though there had been a change in the management of the Union Pacific.

The opinion was expressed here to-

through the Lodian Territory and bethe southwest.

Presidents Miller and Cable had a
conference today, but both declare that
they have not decided upon any definite course of action. They were
firmly of the opinion that they could
not be deprived of the rights accorded
them by their contract, even though
there had been a change in the management of the Union Pacific.

The opinion was expressed here today that the hand of Jay Gould has
been seen in all this. He owns the
Missouri Pacific and that part of
the contract which gives the Union
Pacific's territory is not to his taste.

There is a feeling in railway circles
that this affair may prove a death blow
to the presidents' agreement. President Miller said in an interview: "If
that contract cannot be made to
stand, there is no use in fooling
away time with traffic agreements."
He said that he had cailed a meeting of the new Consolidated Association of Western Roads to be held in
New York January 5, and in-imsted
that the present complication with the

ing of the new Consolidated Association of Western Roads to be held in New York January 5, and in imated that the present complication with the Union Pacific about the Omaha bridge matter might interfere with it.

"If the contract which the St. Paul road has with the Union Pacific," said Miller, "cannot be enforced, it will not be expected that any private agreement the presidents might make will hold good."

Union Pacific Laborers Still Unable to Obtain Their Money. PORTLAND, Dec. 29.—[By the Asso-clated Press.] The situation of the laborers forced into idleness by reason of the cessation of work on the sound extension of the Union Pacific is unchanged. This afternoon the Mayor of the city sent the following telegram to S. H. H. Clark, vice-president and

to S. H. H. Clark, vice-president and general manager of the Union Pacific Bailway, with headquarters at Omaha:

Nearly one thousand discharged and unpaid employes of your construction department are in Portland in various stages of destitution. Several hundred of these are being fed and lodged daily by the city and by private charity. All of these men hold unredeemed time-checks which the contractors have no means to pay, h ving exhausted their reserve and being unable to obtain from your company any portion of the \$350,000 now due them on their contract. I subsit directly responsible for the condition in the the United States owing to the alleged existence of pleuro-pneumonia in the Dominion, is much criticised here. SAN FRANCISCO, Dec. 29.—[By the Associated Press.] The Executive Committee of the California World's The "Smuggler King" Cap-

Committee of the California World's Fair Association met today. Drafts of two bills were accepted and ordered presented to the Legislature. The first bill appropriates \$300,000 for exhibiting California products at the World's Fair. The second bill provides for an amendment to the county government act permitting counties to raise money for exhibits at the World's Fair. The bill permits counties of the first class to raise \$50,000, the second class \$40,000, the third class \$30,000, the fourth class \$30,000, the fifth class \$10,000, and all others not more than \$7500. A telegram was sent to Director-General Davis, asking if California could have space for a separate state building in addition to the general exhibit, and whether such a separate exhibit can compete. ing telegram from Carrollton:

John was murdered by a mob. He had been notified by a dozen men that a mob was going to kill him that day. He saw the men with their guns and got a rifle, when he did this the Sheriff arrested him and placed him under bonds.

John pointed three men out to the Sheriff and asked him to arrest them and protect his life. The Sheriff refused. It was a plot and all were in it. When he went to the hotel for dinner, McBride, who was still in the drug store, shot him down with a shotgun, killing him instantly. Not satisfied with this, McBride fired four shots at him from a revolver, after he was dead. The mob then began dancing and shouting around the body with the most vile abuse and curses.

John had received several abonymous isters teiling him that he must leave town. The murderer goes free and all because they must have the postoffice.

It is alleged that Leila Latta, who is a doctress, took the life of Mrs. E. E. Swanon by committing an abortion upon her, The trial is one which is exciting considerable public interest, as the courtroom was crowded yesterday throughout the en-tire day. The defendant sat facing the

judge and prospective jurymen, acting calmly and taking matters very cooly throughout the day's proceedings.

Lelia Lotta is a rather fair-looking woman about 28 or 30 years of age, and about the last person in the world whom one would think would be the person to commit a deitherste murrier. To her left sat her

The entire morning was spent in examing prospective jurors. The usual questions were asked as in all cases of murder. At the time of the noon adjournment not even one juror had been secured.

At the afternoon session of the court a jury was secured as follows: W. C. Holman, Joseph Smith, J. H. Shrode, Max Schwed, D. G. Stephens, Matthew Densmore, C. W. March, L. S. Butter, William Hunter, R. R. Brown, Jean Parkes and P. Clos.

During the count of the first precinct, Mr. Munday for the contestant objected to a vote cast for "E. A. Hutchinson." being counted for E. H. Hutchinson. The court overruled the objection and directed that the vote be counted for Hutchinson. The contestant excepted to the ruling of the court. One bailot upon which the name E. H. Hutchinson was scratched, but opposite which erasure there was not marked "no vote," the court directed to be counted for Hutchinson. To this the contestant excepted.

Hutchinson was scratched, but opposite which erasure there was not marked "no vote," the court directed to be counted for Hutchinson. To this the contestant excepted.

During the morning session three precincts were counted. The result was that Hutchinson gained 6 votes and McNally 2. A recess was then taken until 2 p. m.

At the afternoon session ten more precincts were counted making thirteen in all for the day. There was but little change. In the following precincts Hutchinson gained, to wit: In the First 2, in the Second 1, in the Forty-fourth 4, and in the Forty-fifth 5 votes, making a total gain of 18. In the Fourth Precinct he loss 6 votes and in the Thirty-ninth 1, making a total loss of 7 and a net gain of 11 on the day.

Monally gained 1 vote in the First, Second and Forty-sixth Precincts, making a total loss of 7 and a net gain of 11 on the Thirty-ninth Precinct, 7 in the Forty-fourth and 3 in the F-rty-fifth, making a total loss of 12 and a net loss of 9 votes. Therefore, Hutchinson's real gain on the day is 20 votes.

The count is being made by wards, without regard to the rotation of the precincts.

More Cases to Come Up Today-A Cunning Scheme. A. B. Greenwald, who pleaded guilty to selling lottery tickets on five counts and was fined \$300 by Justice Austin Saturday, yesterday paid his entire fine. Max Harris, who was also convicted and fined the same amount, paid \$125 and gave notice of an ap-peal in the two cases in which he did not enter a plea of guilty. The first of the second installment of cases against Greenwald will come up before Justice Owens this

Dr. King, the eminent medical writer, in a learned disquisition on our national complaint, constipation, says:—

The great quantity of cathartic pills, etc., which are annually swallowed by the people of this country has been productive of immensely more mischief than is generally suspected. True, the physic unloads the bowels, but in so doing its action tends to diminish, the tone of the intestines; so that, instead of removing the costiveness, it aggravates it, leaving the bowels in a more torpid condition.

WHEN TO PLANT TREES A Much-asked Question Answered

A' MAN WHO KNOWS

Thompson's Views on the Sub-lect-Notes and Comment on Numerous Topics-Per-sonals-Brevities.

C. C. Thompson, Pasadena's well-known orchardist, gave THE TIMES reporter yesterday some yesuable infor-mation as to the best time to plant trees in Southern California. As the

say for the benefit of our readers.

"I am often asked the question "When to pant trees," said Mr. Thompson. The answer I give is to plant now. As soon as the tree has become dormant so as to shed its leaves, it is ready to be dug up, and the sooner it is replanted in the place where it is to remain and grow, the better; for as soon as the roots have been cut by the operation of digging, nature begins to restore the wound by healing over the ends of the roots. As an illustration, when we have the end of a finger taken off, the process of healing is much quicker when the injured portion has been removed by the surgeon's knife. The asme applies to the roots of the tree before being planted. If planted soon after being dug up, that portion

tree before being planted. If planted soon after being dug up, that portion of nature's work is not injured by being handled and thrown around.

"Again nature demands sufficient time to prepare the tree anew with roots before such time as the sap already left in the tree brings forth leaves, and if planted long enough before the leaves start, these little roots will get several inches long and there will be an abundance of them, consequently the tree makes a very vigorous

fore the leaves start, these little roots will get several inches long and there will be an abundance of them, consequently the tree makes a very vigorous growth the first season. If trees have a reasonable amount of roots nearly every tree will grow. On the other hand, if planted late, many will die and those which live will attain a very feeble growth, and the tree will become stunted to quite an extent.

"Some people think if they get their trees planted by the time the leaves begin to grow, they are all right, but this is a great mistake. Nature must have time for this new root process before the tree begins to put forth leaves. Otherwise the tree will die. The more time you give it the better. I have seen the you give it the better. I have seen the you give it the better. I have seen the splanted after the leaves have grown to a considerable size, and a grand failure was the result. My experience teaches me to plant early and press the dirt well around the roots. Care should also be taken to see that the roots are spread out in as near their natural position as possible, as the dirt is put around the tree.

"I received a letter a few days ago in which the question was asked which I thought the best season for planting, spring or fall. The letter was written in California but I presume the idea was an eastern one. I don't know of any application in California to plant trees, unless it be now, and this we call winter. The early winter, then, is the time to plant hearly all kinds of fruit trees, except the orange and lemon. Our seasons are so different from those we have be an accustomed to in the East, that some people do not adapt themselves to this country as they should, and wait to plant trees for the advent of spring, when it is already here. Let us be active and plant at once to insure the success of our orchards."

Mr. Thompson is at present engaged in planting 2000 trees in his orchard morth of town, proof positive that he practices what he preaches.

speaking of the young man's even career, the Chronicle says: The career, the Chronicle says:

The career of young Elienwood on the Pacific Coast during the past three years reads like a romance. He came to Los Angleis in 1837 from Kentucky, where his father is a banker. Elienwood brought with him \$5000, and, going to Pasadena, invested in real estate, and made money rapidly during the boom. He then opened a bookstore, and not only became a prominent young business man, but a popular leader in Pasadena society. The bursted boom in Southern California and failing health compelled him to sell out, and he came North. He made a trip to Honoiulu, and sojourned for a brief season in the Sound country. Then he drifted to San Francisco, and in May last his funds were exhausted. He was arrested one day for pissing a spurious eneck on one of the local banks, and was convicted of forgery. His rich father hurried here from the East, and young Elienwood was saved the disgrace of roine to San Ouently by being santenced to con tather nursed user from the Last, and oung Ellenwood was sayed the disgrace of oing to San Quentin by being sentenced to the House of Correction. On Tuesday Ellenwood was pardoned, and yesterday he tarted for his home in the East, occupying he lower berth in a Pullman coach, and was dressed in the height of fashion.

New York, Dec. 29.—The stock market today presented a stronger front than it has for the past week, and at the same time showed more activity than for several days. There was considerable opposition to the unward movement in the first hour, but the pressure to sell was then withdrawn, and after money became caster the advance was accelerated, the market closing active and strong at the highest prices of the day. Rock Island is up 2%. Union Pacific and Northern Pacific preferred 1%. Burlington 1%, St. Paul 1%. The market opened this morning with considerable more animation than has been displayed for the past few days, and a firm to strong tone marked the dealings. The opening figures were generally fractionally higher than Saturday's closing. Lackawanna took the lead in the advance which followed the opening, rising 1%; Rock Island following with 1 per cent. Northern Pacific preferred, Reading and Sugar % each, Atchison with %, and others smaller amounts. The upward movement continued throughout the hour, and at 11 o'clock the market, while duil, was firm at about the best prices reached. The market after 11 o'clock was less active, but continued firm to strong, Lackawanna still leading the upward movement. Almost everything in the list reached still higher prices than during the first hour, and while there was little special feature displayed, the market at noon was quiet to duil and firm, at or near the highest prices of the morning. After noon the stock market was very duil, and declined in small fractions, but toward 9 o'clock the upward movement was resumed, and continued until the close, at which time the highest prices of the morning at 3% for bankers' bill advance is mainly due to the covering of shorts, and this was started by some moderate buying for London accounts, notwi

SAN FRANCISCO MARKETS.

SAN FRANCISCO, Dec. 29.—[Special to THE TIMES.] There was very little, if any change in prices this morning from Saturday's figures. A carload of eastern butter is expected tomorrow morning. A carload of eastern eggs reached here this morning, shading the price slightly. In the provision line trade is good. The cereal markets opened in better shape. Shipping wheat was stronger, and more active with fair demand. Feed barley is stronger, and sales were made this morning as high as 143%. Oats are firmer and in better demand. Bran, middlings and other milistuffs are firm, but unchanged.

The New York Fruit Market.

New York, Dec. 29.—The Commercial Bulletin, discussing the fruit situation, says: "It will be difficult to picture a more stupid condition of affairs than that observed at present. There is absolutely no demand for goods from interior points, and among local large dealers there is complete absence of speculative interest, the low prices current for most lines influencing not the slightest attention. The foreign markets reflect generally a firm tone, though naturally at this time cable offerings of stock are not frequent. The crop of prunes in France the past season was in fair quantity and of unusually good quality. The market in Bordeaux appears well sustained, with no disposition to urge supplies, the belief being entertained that there is on hand the entire available quantity required during the coming season. The Turkish prune crop was a comparative failure this year. The stock of Valencia raisins is exceedingly small, and consists chiefly of better-class fruit. The crop of Malega raisins this season was small, but as this country has become almost wholly dependent upon California for a similar class of fruit, the scarcity has been without influence on this side of the water. For the best grades of imported fruit there is yet a moderate call. Good fruit has been in fair demand all along. For such, full prices have been and are exacted."
